

Holiday Inn Express Dunfermline

RESPONSIBLE VISITOR CHARTER

We are asking all our guests to be responsible visitors and help us in our aim of reducing the carbon footprint of our hotel by considering the following ideas during your stay with us.

Maybe some of these will become a permanent feature when you return home.

Here are some things you could do to help save our planet.

Leave the car behind If travelling to Dunfermline, St Andrews, Glasgow and Edinburgh, there is an excellent local bus service from just outside the hotel. If planning a trip to Edinburgh, trains run hourly from the nearby Dunfermline Queen Margaret Railway Station direct to Edinburgh Waverley, a stones throw from Princes Street and the Royal Mile. Ask our reception staff for timetable details.

Linen and towel changing Agree to the policies printed on our Green Foot leaflet in your room.

Be water wise Switch off taps when brushing your teeth.

Save Electricity On leaving your room please take your key card out of the slot.

Shop locally Use local businesses selling Scottish produce.

Reduce, reuse, recycle When shopping use just one carrier bag for as many different purchases as possible. Use our battery recycling box at Reception.

Respect Nature Avoid littering by using the bins provided to prevent damage to foot and cycle paths, not forgetting our beautiful countryside.

Please enjoy your stay, we hope you will stay with us again.
